

GOOD FOR ME, GOOD FOR THE PLANET

Consumers seek for green and sustainable ingredients that will contribute in their wellness and cosmetics attributes. When sustainability and naturalness drive purchasing acts, Tereos offers you a broad range of sustainable solutions made from renewable materials.

Whether you are looking to improve the functionality of scrubbing moisturisers or texturisers, Tereos offers a range of products and solutions to suit you.

Polyols and liquid sweeteners, for a wide range of benefits

Made from renewable materials, our broad range of polyols and liquid sweeteners can help you meet functional benefits that you are looking for to keep on improving the consumer experience. Enjoy our portfolio to meet consumers desires!

Sugar, a sweet solution from sustainable origins

Either you prefer the exotic aspect of cane sugar or the French origin of sugar beet, Tereos can offer you a wide range of sugars from both origins. Let's discuss together how our different sugar types can expand opportunities in your applications.

About Tereos

Tereos is a farmers' cooperative that turns raw agricultural materials into **sugar**, **alcohol** and **starch**. The company is the **second largest Sugar** Group in the world, **the third European** Starch & Sweeteners producer. Present globally in **17 countries** with **49 locations**, Tereos acts locally to meet your needs.

All of it in a sustainable manner

Sustainability is part of Tereos' DNA, driven by a strong Corporate Social Responsibility policy built on 5 pillars. Tereos processes each year more than 45 millions tons of raw materials. The Group pays a specific attention to ensure that maximum value is made from agricultural production, while reducing its environmental footprint.
