### Enlarging your options for sustainable beauty

At Tereos, we can offer you a wide range of ingredients for your different cosmetic applications.

Powered by nature, sourced and produced in France, our plant-based portfolio includes sugars, polyols, liquid sweeteners and organic alcohols that can improve the performance, functionalities and sustainability of your end product.

We have more than 20 years of experience offering sustainable ingredients that increase the sensory experience in haircare, skincare and fragrance applications.

**Our solutions are good for you and good for the planet!**
